WELCOME TO THE ULTIMATE LEARNING MODULES

Basics of Stock Market: As they say 'Everything in life goes back to the basics' | We start from understanding the very basics like trading platforms, jargons to how you read a plain chart

Introduction to Price Action: In Price Action we trust! 90% of this mentorship is based on basics to advance price action

Atirekhin Strategy: With over 5 years of experience, we've built Atirekhin strategy that has helped 100s of traders earn consistent profits from the market for a livelihood

Intraday Equity Trading: Indian traders are in an Illusion that money is only made in Nifty and Banknifty but we are here to prove that its not true!

Options Trading Strategy: We only trade in stock options with proper hedging and this method s followed by top Hedge funds in the world

Risk management: Trading can never be profitable without strict risk management - In this module we understand why!

FAQ's

- What will be the timings of the mentorship? - The challenge is divided into two major categories, 1st- Live trading where you can follow our trades shared in DC NETWORK. 2nd- Live learning where you can attend our sessions organised on Saturday and Sunday at 8pm to 10pm
- Will I become a profitable trader after joining this challenge? - We believe to be profitable you need two things. No.1- A proven trading system and No.2- Consistency in following the system. No trader is ever profitable without consistency so it completely depends on how you use the knowledge we give you.
- What should be my trading capital? - It is recommended to have around 40k INR to follow our trades, but you can start with as low as 5k to get the practical exposure of the markets
